TURNBULL & STARK, P. C.

INSTRUCTIONS FOR CAREGIVERS

Please complete the following form to communicate to future caregivers and trustees what you think they need to know to care for you or your loved one. Regardless of where the person with a disability lives – in a group home, a parent's or family member's home, or his or her own home, you or the parent (spouse or other family caregiver) should indicate what you know best based upon a lifetime of your care. You can pass on the information to succeeding caregivers. These instructions should be given to successor caregivers (and trustees) after they have agreed to serve as well as kept in the special needs trust attorney's file. Sharing the instructions is best done though a meeting to review the Letter after it is completed.

This letter of intent is designed to give successor caregivers and trustees the realistic information they need to carry on effectively as caregivers after parents (or other family members) no longer can provide the care themselves. This practical information could also alleviate concerns that caregivers and trustees might have about how they best can fulfill expected family obligations.

If you run out of space, please attach additional sheets of paper as needed.

For: ____

Name of person with disability

Prepared by: ____

Date: ________________

Signature: _____________________________________
